16 January 1956

MEMORANTIM FOR: Director of Personnel

SIBJECT:

Proposed H and FW 20-615-X, Retention of

Civil Service Retirement Status by Continuity

of Service Rule

- 1. Study of subject Notices reveals that they are clearly written and in accordance with law. We have only a few comments.
- 2. The first sentence in both regulations might be clearer if the phrese "which is otherwise excluded" were changed to "which otherwise would be excluded."
- 3. In the first sentence, reference is made to "paragraph 2a(1) through (4)". Paragraph 2a actually has five subparagraphs; it might be preferable to change this language to read "2a(1) through (5)".
- 4. Provision is made for the return of Social Security withholdings in certain cases. Do we have these funds evailable within the Agency in all cases or are there provisions for securing their return from GASI? If there is likely to be any difficulty, might it not be appropriate to include a provision that these funds will be returned only if still available within the Agency?
